U. S. R. NILES, (Successor to V. H. Palmer.) Newspaper Advertising Agent, No. 1, Beal's Building, Court street, Boston, is authorized to receive advertisements for this paper, at the same rates as required by law.

Our United States Senator

At this eventful hour, and in connection with a very important subject, we feel it our duty, to devote a few lines of remark to the following rather cool production, which appeared in the "United States Hotel Directory," of the 16th inst. The "Directory" is a very creditable weekly periodical, and has lately reached its fourth number. From appearance, it already thinks itself qualified to designate the proper person to represent the people of Rhode Island, at the Senate floor of the United States.

Well, possibly it may know what is best; and possibly the good people of this State may acknowledge its capacity to direct them in this matter, and possibly they may regard it as presumptuous and impertinent to a degree. But let us read the article:—

UNITED STATES SENATOR IN RHODE ISLAND.—The Rhode Island Legislature is about to elect a United States Senator in place of the Hon. Philip Allen, whose term has nearly expired; and we cannot refrain from expressing a hope, which is quite universal outside of "Little Rhody," that Governor Henry B. Anthony may be the man.

For some twenty years Governor Anthony has conducted the "Providence Journal" in a manner to reflect credit upon himself and the State; and he has made half a dozen Governors and other political dignitaries, who are now trying to beg their way into the Senate, to feel that they were really money versus brains. Governor Anthony is an exceedingly modest, as well as a most meritorious man; and we hope his friends, both in the State and out of it, will pull everything necessary to secure his election.

This then is the advice of the New York Hotel Directory. Now there may be some ungracious enough to say that, if the people of this State choose to elect an incompetent or unqualified person to the Senate of the United States, the New York Directory will not be held responsible therefor, and would not have been, even if it had forborne its advice. And there are others who will seek to justify such an act of folly by quoting their own prior folly, or that of their predecessors, declaring that the State, before now, has been represented on the Senate floor by weak and vacillating men, and by knaves and blockheads, and think that it follows, as a matter of course, that the State Legislature has a mind to send a fool now, because no trapper or hare is money enough to buy his way there, that it is their established right—established by precedent—which they are bound to defend, and that no one outside the State, has any right to complain thereof. Now, although the selection of a Senator to represent this State in the Congress of the United States, is exclusively the business of the people of this State, surely the people of other States, who feel an interest, and have an interest in the general welfare of the States, may very properly give us advice, even unsolicited, if the advice is good: but it is worse than meddling interference if pernicious counsel is volunteered. We are advised, in making choice of a Senator, to give brains the preference over money. Good advice, as far as it goes. It is very true the possession of brains should avail more with the State Legislature in the choice of a man to fill so exalted a position, than the possession of a mint of money. But the possession of brains is not the only qualification requisite—nor are Governors, with or without an ex prefix the only aspirants for the Senatorship. Integrity, character, both ought to be requisite, and *et cetera* should be considered indispensable, particularly in these days. A back is as necessary as brains, and a back with a bone in it, and a stiff bone too. If it is acknowledged to be only a choice of evils, that is allowed us by the political managers,—it we are to choose from the three candidates indicated by the "Directory" it would be preferable taking the man with empty pocket and a hat full of brains, rather than either of his brainless competitors, however well ballasted their pockets may be. But we should like to enquire what Republicanism has to gain by the election of either of them? Their political education is most emphatically of the "circumlocution" order, and their only aim would be "how not to do it." And although in this practice to succeed admiration, only a very small amount of brains is requisite, and those of the lowest animal order,—enough to make the possessor as cunning as a fox, and as sly as a weasel—nevertheless, if we must choose from the three indicated, give us the man with brains—the man most manly. Let us Republicans desire all the consolation we may, from the reflection that, although we are done for, and done brown, we can plead the advice of the New York Directory in extenuation; and when our Senator goes down, as go down he inevitably will, before some fire-eating blackguard or bully, we can do as we have done many times before—exclaim—Oh, for a man of pluck,—for a man with a back!

The Musical Institute gives its Concert this evening.

LOCAL NEWS.

If the News was as well posted as it should be, it would never have exposed its ignorance or jealousy as above. By referring to our last week's issue it will find under the head of City Council the following resolution:—

"That resolution, growing out of our report of the present state of the beach, and if the danger we speak of is not real, the city fathers have authorized the expending of one hundred dollars, and the News should take them, as well as us, to task."

The News seems also to be troubled by the position we have acquired in reporting "local news." It was half as wise as it pretends to be, it would see that we have chosen the better part, and have acquired what we want, an extended patronage at home and abroad—slightly through these local items, without which a paper cannot hope to thrive and prosper.

Our weekly neighbor across the way, the Newport Mercury, perpetrates the above remarkable piece of puerile abuse, on the strength of our remarks in reference to an article in that paper, respecting the injury done to Easton's beach by removing sand and gravel.

By reference to our article it will be seen that we do not find fault with its boasted wisdom which resulted in a sand fence, nor do we object to the sum which the City Council has seen proper to devote to that purpose. Our remarks were only intended to prevent the wilful misrepresentation which had been made by other papers with the sanction and leadership of the Mercury.

For instance, one of our exchanges glories over the fact that Newport is used up as a WARREN PLACE, "as its splendid beach has been entirely ruined by this sand affair," and then quotes from the Mercury for its authority, &c. Now our statement was merely intended to refute this misrepresentation and untruth, which the Mercury has implied, although it had not courage enough to make it openly. Again, what can we think of a paper which risks the reputation of its birthplace, and that birthplace our beautiful Newport, to allow its editor the trifling of commission which is to be obtained from the sale of a few loads of sand and gravel from a beach not EASTON'S.

With respect to the trifling of wisdom and wit with which we are credited, we thank our ancient contemporary, and are pleased to find that his pretended generosity towards us, has lately found vent in those classic lines of his, above noticed.

After using up the Mercury goes on to boast of its "extended patronage," which it has gained by its well known reputation, and its LOCAL ITEMS, a specimen of which is the one we have quoted, together with a notice of the purchase, by Mr. Young, of parade corner, an event which transpired only three weeks ago; a puff for the Musical Institute,—ditto, for Dr. Sanford's Invigorator, which has been in at least three times in the same words; a notice of No. 3 Engine Co., &c. All of which items, were noticed by the ignorant and jealous News, about a week previously. Finally, as regards the charges of ignorance and jealousy, as we consider the Mercury an excellent judge, by experience, of these two qualities, we will stand aside convicted, until Saturday next, during which time we recommend our friend, the editor, to search Noah Webster's latest edition to find suitable epithets to pour down upon our devoted head.

A Domestic Tragedy. Several of the Providence papers published a statement during last week, stating that a man named Read, who belonged in Newport, and resided on Sheldon street in that city, had, while under the effects of liquor, beaten and otherwise ill-treated his wife in a most shocking manner, thereby causing her death. The statement was copied in the Newport Mercury, of Saturday, and on the same day the Providence papers related the whole matter as "scarcelyly untrue," alleging that Mrs. Read's death was caused by the combined effects of typhoid fever, liver complaint and erysipelas. Mr. Read is now in Newport, and certainly looks very little like a wife murderer. We would advise the Mercury to be a little more careful of its well "earned reputation" in future, and not to publish statements on the very day that they are related.

We will copy the articles referring to this matter in the Providence papers, to-morrow.

We present to our readers this morning a letter from Mr. Alfred, the gentleman who delighted our citizens by his fine vocal powers at the last Concert of the Institute.

CORRESPONDENCE.

WASHINGTON, Thursday, May 20.

The Colorado, which left Norfolk on the 12th inst. to keep the British War Steamer Styx straight, was also instructed to take in her way one or two other vessels of the Home Squadron, and intimate to them the utility of their presence in the West Indian waters. The flag ship of the Squadron has been telegraphed to via New Orleans. If Great Britain's instructions to her cruisers are as positive to persist in searching our vessels, as the instructions of our Government are positive to prevent such searching, a serious collision between the two powers is inevitable, and we may soon expect to hear of destructive naval engagements. It is surmised by some here, that the suppression of the slave trade is a mere pretense on the part of Great Britain to surround Cuba with her Navy, while her real design is to aggravate a collision with the Spanish authorities and ultimately seize that Island. The signs of the times, however, hardly warrant such a conclusion.

If the report of the surrender of the Mormons proves true, it is the intention of the Government to establish a strong military station at Salt Lake city, for the double purpose of keeping the Mormons in subjection, and subserving the general convenience and strength of the Army. All the preparations that have been made for the campaign will be carried through, and all the military stores in transfer, and a considerable part of the force will be retained in Salt Lake City. And, as we intimated yesterday, orders are maturing at the Department, for a detachment of the troops to return by way of the Mexican frontier.

A very interesting and important amendment is to be proposed to the Bill appropriating the clerks and messengers in the Departments here, among the several States, &c. It is to effect that the number of office hours per day shall be six, from 9 A. M. to 3 P. M., and that the hours for labor, in all Government works throughout the country, carried on directly by Government, shall be the same. It is to be argued that the laborer, whose service is always a reality, should not be required to devote more hours to the Government than a clerk whose wages are three or four times as much, and whose office is frequently a sinecure, and at most, frequently employs less talent and skill, and real worth than is possessed by the lowest laborer. It will be contended that six hours a day, hard labor, ought to entitle any man to a good living, in this land of freedom and plenty, and that it becomes the general Government to set a good example to private capitalists instead of following, as it does, the close and liberal calculations of the latter.

We notice that some of the papers attribute to the Administration a war policy, or rather a conquest policy, towards Mexico. Such is not the case. The policy of the Administration towards Mexico is simply the Monroe Doctrine; and the ultimate destiny doctrine. Uncle Sam has no notion at present of taking into his family all the revolutionists and ruffians of that distracted country. He prefers to wait until they get through their fighting, and become civilized and Americanized.

REVOLUTION IN THE RIGGING AND SPARRING OF SHIPS.—The ship Edward, of this port, owned by Captain Barton, is now being rigged upon a new principle, which we understand has been patented by a gentleman in New York, Captain Lewis, who is superintending the operations. The improvement, it is claimed, will propel a vessel faster, with a less number of seamen and at a less expense, than upon the old plan. Masts and rigging are entirely dispensed with. In the place of masts, shears are to be erected, forward and aft, high fastenings, two pair in each place, and between each set of shears the yards hang on pivots. The bowsprit will also be done away with. The ship, it is to be rigged as an experiment, will probably be ready for sea in a couple of months, when we shall be able to give a fuller description of this novel rig, which the inventor is sanguine will effect a revolution in the sailing and building of vessels.

MORMONS.—A correspondent of the Washington Union says that Col. Kane is a Mormon, and that the late intelligence supposed to emanate from him is for deceptive purposes. He also says that Col. Kane, through whom the intelligence comes to the St. Louis Republican, is one of the twelve apostles of the so-called Mormon church, and was till called home last fall by Brigham Young, the apostolic head of the "Mormon settlement at San Bernardino, California." The writer lived a year at Salt Lake City.

Col. Kane is son of the late Judge Kane and a brother of Dr. Kane, the Arctic navigator. The assertion that he is a Mormon we believe to be unfounded. He has long taken a warm interest in the Mormons. Many years ago he was among them, and the care and attention he then received inspired his lasting gratitude. He made a visit to this city some six or seven years ago, upon some mission connected with this people, at which time he called upon us. We well remember his earnestness and enthusiasm in behalf of the Mormons. He regarded them as a long-suffering and persecuted race and plead earnestly for the exercise of justice and charity towards them. Col. Kane undoubtedly has a great influence with the Mormons, and if this misguided people have concluded to withdraw from a profitless contest with the general government, the credit for this happy consummation must undoubtedly be accorded to him.

The annual report of the New York Yearly Convention of the American Society for the Abolition of Slavery, which was received in New York, under the direction of the committee of arrangements appointed therefor. There will be a prize valued at \$250 for each class of yachts.

BOWIE KNIVES AMONG RECONTEERS.

The Washington correspondent of the New York Express transmits the following interesting items:—

"The Senate was a little startled the other day, out of its dulness and dignity, by an accident. A reporter carelessly threw his overcoat over the rear railing, which shuts off the reporters from the Senate below. It chanced that in the pocket of said overcoat there was a stout bowie knife, which, by the impulse given to the coat, thrown by some violence below, striking the blade into Senator Hammond's seat, which was at that moment unoccupied. For a moment the Senators were startled out of their propriety, and the Sergeant-at-Arms went up to the gallery and arrested the proprietor of the coat, but when explanations were made, he was released."

LEGAL TENDER.

The law regulating the payment of debts with coin provides that the following coin be legal tender:—

1. All gold coin at their respective values, for debts of any amount.
2. The half dollar, quarter dollar, half dime and quarter dime, at their respective values, for debts of any amount under five dollars.
3. Three cent pieces for any amount under thirty cents; and
4. By the law passed at the last session of Congress, we may add, one cent pieces for any amount under ten cents.

By the law of Congress, passed some four or five years ago, gold was made the legal tender for large amounts. Those who, to get rid of large quantities of cents and small coin, sometimes pay their bills with it, to the annoyance of the creditor, will perceive that there is a stoppage to that antic by the law.—N. Y. Economist.

THE ATLANTIC TELEGRAPH.—A Southampton correspondent thus writes:—

"All the wire has been removed from the tanks at Keyham, excepting about 200 miles, which are in the course of removal, at the rate of about 2 miles per hour, to the Niagara. Up to May 1st she had received 1,070 miles. The balance of the wire is daily expected from the manufactory by the Atlantis and another steamship. The total length shipped last year was 1,255 miles; this year the Niagara will take 1,408.

The Agamemnon has received all her portion of the wire from Keyham, and like the Niagara, is expected some from the Atlantis. She has in her upper deck 233 miles; on top 95 and main hold 932; here there is space for 210 additional miles, about the same quantity as that on board the frigate, and like her 200 miles more than last year. The measurement is by statute miles."

OBEDIENT ORDERS.—"Edward" said his mother, to a boy of eight, who was trundling a hoop in the front yard, "Edward, you mustn't go out of that gate into the street."

"No, ma, I won't," was the reply. A few minutes afterwards his mother had occasion to go to the window. To her surprise she saw Edward in the street, engaged in the very edifying employment of manufacturing dirt pies.

"Didn't I tell you," she said angrily, "not to go through the gate?"

"Well, I didn't, mother," was the satisfactory reply; "I climbed over the fence."

THE REJECTED TRACT.—The tract that was rejected by the American tract Society, and that has caused so much difficulty in that association, was written by Mr. C. K. Whipple of Boston. A premium of \$200 had been offered for the best tract on the subject, the Family Relations of Slavery, and the sum was awarded to this tract by a committee consisting of the Rev. Dr. Wayland, the Rt. Rev. T. M. Clark, Bishop of Rhode Island; C. Steadman, Esq., of Massachusetts, and the Rev. D. Brown of Scotland.

A LOAN ASKED FOR.—The President of the United States has formally asked Congress for authority to contract a loan of fifteen millions of dollars, for a term not exceeding ten years. The Senate Committee of Finance have the matter under consideration.

TESTIMONY OF A LADY OVER 50 YEARS OF AGE.

Mr. Mason, Sir—I write to inform you how pleased I am with your Alpine Hair Balm. My hair has been gray for a number of years, and I have been obliged to wear a front piece and cap; but have always found a difficulty when having a bonnet on to keep the front piece from working back and showing the white hair. Finally I concluded I would try your Alpine Hair Balm; I used one bottle only, and my hair has come back to its natural color, which was brown. My hair is now perfectly free from dandruff and is soft and glossy. Very respectfully, SARAH LYON.

READ! READ! READ! The following Certificate of cure of over 20 years' standing:—

H. T. HALLMUND.—Dear Sir—I have been troubled with an affection of the Bladder and Kidneys for over twenty years. I have tried physicians in vain, and at last concluded to give your genuine preparation a trial, as I had heard it highly spoken of. It afforded me immediate relief. I have used three bottles, and I have obtained more relief from its effects and feel much better than I have for twenty years previous. I have the greatest faith in its virtues and curative powers, and shall do all in my power to make it known to the afflicted. Hoping this may prove advantageous to you in assisting you to introduce the medicine. I am, Sir, your truly, M. McCORMACK.

As a remedy for consumption, bronchitis, female debility, asthma, gout, rheumatism, sciatica, eruptions, neuralgia, infantile wasting, emaciation, &c.—it has no equal. It ought to be used freely as an element of nutrition in any case where there is decay, however slight, of the constitution. It will restore feeble children to robust health, and is the most valuable nutritive agent known. Thousands have been rescued from the GRAVE OF THE CONSUMPTIVE. By its timely and adequate use! The oil made by us is recommended as the BEST of foreign or domestic origin, by the Physicians of this city. The New York Chemical Gazette, says: "We take pleasure in testifying to the superiority of Hazard & Caswell's Pure Medicinal Cod Liver Oil over that we usually meet with."

Consumers can depend upon this oil, as strictly pure, and scientifically prepared. Prepared and for sale by HAZARD & CASWELL, Newport, R. I. Sold by Druggists throughout the United States and Canada.

PROF. O. J. WOOD—Dear Sir: Some
 time ago we were induced to use some
 of your Hair Restorer, and its effects were
 so wonderful, we feel it our duty to yolk
 the afflicted, to report it.

Our little son's head for some time had
 been perfectly covered with sores, and some cal-
 led it scald head. The hair almost entirely came
 off in consequence, when a friend, seeing his

sufferings, advised us to use your Nestor
we did so with little hope of success.

our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say the our boy has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair.

We are, yours respectfully,
